

Dear Senator (Representative, Governor,)

To end the epidemic of gun violence in this country, I urge you to support laws at the Federal and State Level that would:

- Limit the sale of assault style weapons regardless of age.
- Enhance background checks for those buying guns.
- Enact red flag laws.
- Ban high-capacity magazines.
- Restrict the sale of body armor.
- Require safe storage of guns.

I also ask you to support gun violence research and prevention initiatives.

We have more guns than people in the United States and yet we are the only country that continues to have extremely high rates of firearm homicides and mass shootings. More guns will not make this nation safer.

Sincerely,

Name
